PBT BRUSHES

This is our **best quality** line of brushes. *Designed for foodservice environment*, we manufacture this brushes with **FDA approved materials** (polypropylene block, PBT fibers and stainless steel wire for staples). PBT Fiber will last 6 times any polypropylene or PVC fiber, it will work under heat environment and can be introduced in an autoclave (steam) for disinfection process at 230 Fahrenheit Grades (110 Celsius Grades).

Available in 6 colors for COLOR CODING PROGRAMS according with HACCP policies.

Short & long handle UTILITY BRUSHES

SIZE	CODE	CODE	CODE	CODE	CODE	CODE	PACK
8 1/2 "	4002W	4002T	4002R	4002G	4002Y	4002B	6
20 "	4102W	4102T	4102R	4102G	4102Y	4102B	4

With **medium stiff fiber**, this brush is popular in food industry to scrub and wash of plastic containers, big pots, kettles and many others. Difference between SHORT and LONG handle versions is only that long handle is useful in "hard to reach" areas or when you need to clean some machinery parts in movement where the security of the user will be in risk (a very common situation in food factories).

10" BI-LEVEL BRUSH

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4202W	4202T	4202R	4202G	4202Y	4202B	2

Bi-Level design with two different brush surfaces allows you to clean flat surfaces, under counters, tile covered walls and along baseboards. Threaded hole with flow through design allows to use with water feed handles applying the cleaning solution while you are scrubbing the surface.

New color available.

"SWISS-DAIRY" Cutting board brush

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4302W	4302T	4302R	4302G	4302Y	4302B	6

This brush is designed for cleaning and scrubbing flat surfaces and around close spaces. Extreme flare is convenient for scrubbing "hard to reach" areas. As its name say, this is also a popular brush in Dairy Industry.

"COMFORT GRIP" brush

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4402W	4402T	4402R	4402G	4402Y	4402B	6

8" Plastic Block with ergonomic design, this is a hand scrubbing brush for many applications on flat surfaces. Mainly used on STAINLESS STEEL COUNTERS and working tables inside any food related facility (restaurants, hotels, food factories and supermarkets). Speaking about supermarkets, this brush will solve your "commercial refrigerator" cleaning problem.

PBT BRUSHES

10" DECK SCRUB BRUSH

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4502W	4502T	4502R	4502G	4502Y	4502B	6

With $\frac{3}{4}$ " acme threaded hole, this brush is popular since it can be used with or without handle. Compared with our Bi-Level brush, you will save almost 50% on its price and it will be the right one if you do not need to work under counters.

COUNTER DUSTER BRUSH

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4601W	4601T	4601R	4601G	4601Y	4601B	6

For bakeries and those facilities where flour is involved, this is the right choice to clean your working tables. Its fine fiber allows you to clean very fine dust.

BROOMS

CODE	CODE	CODE	CODE	CODE	CODE	PACK
4702W	4702T	4702R	4702G	4702Y	4702B	6

As the rest of our PBT line, this broom will last 6 times any regular broom in the market. **Medium stiff PBT fiber** is ideal for almost any sweeping condition (*from fine dust to thick debris*). Its threaded hole fits any $\frac{3}{4}$ " ACME standard threaded handle (*all handles on our catalog*). Heat resistance makes this broom an outstanding performer when you need to work with hot water. 4" Trim Length.

Handles are separated sold.

TWISTED INWIRE BRUSHES

SIZE	CODE	PACK
16 "	2716	1
19 "	2719	1

ULTRA FIX Pad driver

Ultra fix is our new design for pad drivers and it is densely filled with **polypropylene** fiber that means *excellent support* and *traction* for any floor pad. It is manufactured with the same marine grade plywood than all our floor machine brushes and it comes with 1 1/2" thick wood riser.

SIZE	CODE	PACK
16 "	2516	1
19 "	2519	1

TELESCOPIC POLES

3/4" standard acme thread that fits any of our products.

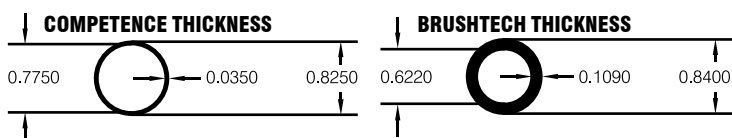

Hard Work TELESCOPIC POLES

HIGH quality, HIGH performance, HIGH resistance. LOW cost.

Our aluminum telescopic poles are the most resistance option for aggressive works. It's reinforced wall (3 times thicker than the competence poles) assures a long life. The end of each pole is comprised of a resistant metal threaded tip that will resist hard scrubbing labors that regular poles (mainly designed for window cleaning with squeegees) will not. If you need an extension pole to be used with brushes, **Brushtech** poles are your best option.

DUST MOP metal frames

THREADED CONECTOR dust mop frames

We are proud to introduce the new alternative on dust mop frames. Traditional frames always needs expensive special handles that increase your cost. This new threaded plastic conector will allow you to work with the same not expensive handles that you bought for your brooms but also allow you to put the frame in a telescopic pole and use it as duster in high walls.

- Thick galvanized metal wire.
- Reinforced lamina at the conector area.
- Security nut.
- Patented design plastic conector.

(This threaded conectors can be used with any handle from our catalog)

Handle or dust mop refill are sold separate.

WET MOPS

Yatch mops comes in bundle, kentucky and plastic socket mops in cases.

14 oz. KENTUCKY MOP HEAD

A traditional mop head that is useful with *any standard mop handle* and it's manufactured with a mixed yarn (90 % cotton and 10 % polyester) that gives the best of both fibers to this mop since cotton gives good absorption and polyester gives high abrasion resistance. 14 oz. (400 grams) is our standard and only size but we can produce different sizes according to your needs.

CODE	PACK
8214	24

YATCH MOPS

Model 500 (8150)

Premium quality yarn is attached to a wooden handle and securely wound to lock it in place. The yarn that we use for this mop is a mixture (90% cotton and 10% polyester) that gives excellent absorption and durability to the product. 14 oz. (400 grams) of yarn is an excellent size for **semi-professional cleaning labors** and also for **housewives**. 7/8" X 48" clear laquered wood handle.

Model 750 (8175)

The same yarn and same quality than above but in a bigger size means a good deck mop for **industrial purposes**. 21 oz. (600 grams) of yarn allows the user to clean larger areas in short time. This mop is available with 7/8" diameter wood handle (code **8175**) or with a 1 1/8" diameter wood handle (code **8175-E**) for high resistance and more comfortable grip.

POLICLEAN PLASTIC SOCKET MOPS

This mop is made from a non-woven material that is light and highly absorbent. Compared with cotton yarn, **Policlean** absorbs 3 times more water so it will hold great quantities of liquids.

Highly resistant to chemical damage and linting is almost nonexistent.

Available in yellow color only.

3/4" standard ACME threaded plastic head with two big benefits :

1. It works with any threaded handle eliminating the necessity of a special handle for each cleaning tool.
2. These mops are made so you can change soiled mops quick and easily without touching the mop.

Five different colors available allows you to establish a **color code program** with an inexpensive mop.

Two different sizes available : 10 oz. (300 grams) for **housewives** and 14 oz. (400 grams) for **semi-professional** applications.

Handle not included

ecoblend MOP

Ecoblend is an **eco-friendly yarn** manufactured with 40% regenerate PET, 40 % regenerate rayon and 20 % cotton fibers.

PET Fiber is made from recycled PET plastic bottles. In consequence, every time you buy an Ecoblend mop you are helping to preserve our natural resources reducing the amount of bottles sent to the land fill sites.

Available in **green** and **blue** colors.

ANTIMICROBIAL PLASTIC SOCKET MOPS

This mops are made with an excellent rayon yarn that is **treated with a fungicide** during its manufacturing process and that allow us to guarantee the antifungal properties along the useful life of the product and will not wash out or be affected by chemical agents.

Our antimicrobial additive **inhibits the growth of a broad spectrum of bacteria**, mold, mildew, fungi and yeast. The result is a mop that will stay fresher, last longer and be more hygienic.

Ideal for use in **food service, schools, restaurants, hospitals** and any other building that needs to be real clean.
